

Prince George Democratic Committee
PO BOX 2048
Prince George VA 23875

WHEREAS the Prince George Democratic Committee is committed to diversity in representation that reflects the demographics of the entire community in local government and to greater accountability of local elected officials to their constituents; and

WHEREAS the Committee believes that the current district structure (two – multi-member districts) for electing members to the Board of Supervisors and the School Board does not promote diversity in representation or foster greater accountability of elected officials; and

WHEREAS the Committee believes that the establishment of single-member voting districts would promote greater diversity in representation and also make the elected officials more accountable to the constituents within their districts;

BE IT RESOLVED that the Prince George Democratic Committee supports the establishment of single-member voting districts for elections to the Board of Supervisors and the School Board in Prince George County and hereby urges the Prince George County Board of Supervisors to take such legislative action as is necessary to establish such single-member voting districts.

Resolved, this ___ day of _____, 2015 by the Prince George Democratic Committee.

Cynthia Mitchell, Chair
Prince George Democratic Committee
